**Subject:** Request for Sample Results From Region 3

Last November , Doug Foster of Region 3 did some inspections for Region 5 at the Cardinal Generating Station in Brilliant (?), Ohio. Doug left me a voice mail message this morning informing me that he is finally being allowed the time to write the inspection report for those inspections and he wanted the sample results. Doug's recollection is that he sent the samples to Region 5's lab for analysis. A total of three sets of samples were taken. Two sets were taken on 11-14-96. One set consisted of 4 samples taken by Doug and the second set consisted of 4 samples taken by Dick Eaton (sp?). The samples were mailed to our lab on 11-15-96. A third set consisting of six samples taken on 11-6-96 was mailed on 11-15-96. Doug needs these sample results for his inspection report. If you received these results or know what happened to them please let Doug know and send Doug a copy. If no one turns up a copy we may have to contact the lab and try to track down the results.

Jeff:

I found the Federal Express USA Airbill Copy Recipient's  
that I sent Nancy on 11-7-1996 and 11-15-1996

Sorry, yes, she said it would be in the file (or on her desk?).

Has Nancy gotten back to you on Doug's samples? Doug faxed me the chain of custody forms today if those are of any help in locating the sample results.
